Local Green Building Council

WorldGBC would like to notify your local Green Building Council that you have signed up to the Commitment, so that they may reach out to provide further information on where they can provide assistance.

Please state the country where your government entity is based:

## Eligibility requirements

### Policy pathway

**Enact regulations** and/or **planning policy** to ensure NEW buildings operate at net zero carbon by 2030 and ALL buildings operate at net zero carbon by 2050

**Please provide specific examples of existing and proposed regulations and policies:**

1. The Commitment is aimed at accelerating the transition to a decarbonised built environment, requiring **regulation to require and enable** all buildings within the organisations' **jurisdictional control** to achieve net zero carbon by 2050.

**Yes**

Does your organisation commit to this action?

2. The Commitment is unique at positioning energy efficiency of buildings as a core component to delivering decarbonisation of buildings. Whilst the Commitment does not set specific performance requirements, signatories are required to determine and implement an action roadmap that reduces the energy demand of buildings and eliminate carbon emissions.

**Yes**

Does your organisation commit to this action?

3. As a signatory of WorldGBC's Net Zero Carbon Buildings Commitment, my organisation acknowledges the disclosure, verification and reporting requirements outlined in the accompanying Detailed Guidance document or Technical Note:

**Yes**

4. Signatories are required to develop a suite of supporting incentives and programmes to facilitate uptake. Please describe measures and provide intended date of introduction:

### Municipal/government buildings pathway

Commit to **owning, occupying and developing** only assets that are net zero carbon in operation by 2030, new and existing

**Please provide specific examples of existing and proposed measures:**

1. The Commitment is aimed at accelerating the transition to a decarbonised built environment, this means all buildings within the organisations' **direct control** are to be included in their **portfolio** and actioned to achieve net zero carbon by 2030.

**Yes**

Does your organisation commit to this action?

2. The Commitment is unique at positioning energy efficiency of buildings as a core component to delivering decarbonisation of buildings. Whilst the Commitment does not set specific performance requirements, signatories are required to determine and implement an action roadmap that reduces the energy demand of buildings and eliminate carbon emissions.

**Yes**

Does your organisation commit to this action?

3. As a signatory of WorldGBC's Net Zero Carbon Buildings Commitment, my organisation acknowledges the disclosure, verification and reporting requirements outlined in the accompanying Detailed Guidance document or Technical Note:

**Yes**

4. Signatories are required to develop a suite of supporting incentives and programmes to facilitate uptake. Please describe measures and provide intended date of introduction:

## Signatory information

**NOTE:** The impact of the Net Zero Carbon Buildings Commitment will be estimated using data for building emissions as reported by governments via CDP. Additionally, if you have estimated the potential emissions impact of your net zero carbon building regulations and policies, please note those estimates below:

	Policy pathway	Municipal/government buildings pathway
Estimated number of buildings (assets):		
Estimated total area (m <sup>2</sup> ) of buildings:		
Potential emissions impact of net zero carbon building regulations and policies (tCO <sub>2</sub> e)*:		

Note: Government entities must report progress annually against targets using locally relevant verification schemes. This should align with existing reporting protocols using third-party verification and assurance as per the accompanying Detailed Guidance or Technical Note. For non-C40 or Under2 Coalition members, the intended methodology must be declared prior to becoming a signatory of the Commitment. Please indicate which climate action network your organisation is a member of:

**C40**

**Under2**

**None**

**Other:**

Please list any other relevant facts, information or benefits (eg environmental, social or economic) relating to your leadership and commitment to decarbonisation of the built environment:

\*The data provided is not for distribution. It is to be used for research and marketing purposes as approximate aggregated data of Commitment signatories. Additional data collection will be initiated by WorldGBC or its partners for the purposes of impact reporting.

## Declaration

I am authorised to sign this Commitment on behalf of my organisation, and commit to implementing the ambitions contained herein and in accordance with the accompanying Detailed Guidance document.

Signatories joining the Net Zero Carbon Buildings Commitment agree not to undertake activities that will directly or indirectly undermine the aims or credibility of the Commitment or bring the initiative into disrepute.

**Signed**
